ACKNOWLEDGEMENT

The researchers would like to express their sincere appreciation and gratitude to the individuals who played an important role in the completion of this study.

First and foremost, to Bryan M. Torres, MMath and Rico D. Pacala, MMath, their research advisers, for their consistent guidance, support, and encouragement. Their knowledge, patience, and valuable suggestions greatly contributed to the development and completion of this research.

The researchers also extend their thanks to Sherwin R. Balmes, MMath, Roque M. Carillo, MMath, and Lu Micha H. Maigue L., LPT, the panel members, for their insightful comments, constructive criticisms, and helpful recommendations that enhanced the overall quality of the study.

Special thanks are given to the respondents for their willingness to participate and for providing the necessary information needed for this research.

The researchers are also deeply grateful to their families, relatives, and friends for their unwavering moral support, encouragement, and understanding throughout the entire process.

Above all, the researchers offer their deepest gratitude to the Almighty God for His continuous guidance, strength, and blessings that made this work possible.
